INDEPENDENT AUDITORS' REPORT

Board of Finance Town of Southbury, Connecticut

Report on the Audit of the Financial Statements Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Southbury, Connecticut, as of and for the year ended June 30, 2025, and the related notes to the financial statements, which collectively comprise the Town of Southbury, Connecticut's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Town of Southbury, Connecticut, as of June 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Southbury, Connecticut, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Southbury, Connecticut's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due
 to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing an
 opinion on the effectiveness of Town of Southbury, Connecticut's internal control. Accordingly,
 no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Town of Southbury, Connecticut's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and the pension schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Southbury, Connecticut's basic financial statements. The combining and individual fund financial statements schedules, and report of the tax collector, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion the combining and individual fund financial statements schedules, and report of the tax collector are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 13, 2025, on our consideration of the Town of Southbury, Connecticut's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Southbury, Connecticut's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Town of Southbury, Connecticut's internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

Clifton Larson Allen LLP

West Hartford, Connecticut October 13, 2025

This discussion and analysis of the Town of Southbury, Connecticut's (the Town) financial performance is provided by management to provide an overview of the Town's financial activities for the fiscal year ended June 30, 2025. Please read this MD&A in conjunction with the Town's financial statements, Exhibits I to IX.

Financial Highlights

- The assets and deferred outflows of resources of the Town exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$129,885,392 (net position). Of this amount, \$33,401,397 represents the Town's unrestricted net position.
- As of the close of the current fiscal year, the Town's governmental funds reported a combined ending fund balance of \$35,620,067, a decrease of \$137,577 in comparison with the prior year.
- During the year, the Town had revenue of \$87.1 million, an increase of 8.6% in tax and other revenues for governmental programs.
- The total cost of all the Town's programs was \$87.1 million, an increase of 11.9% with no new programs added this year. This increase included the expenditures relates to the August 2024 storm.
- At the close of the current fiscal year, unassigned fund balance of the General Fund was \$11,660,771 or 14% of the Town' fiscal year 2025 adopted General Fund budgetary expenditure appropriation.

Overview of the Financial Statements

This annual report consists of a series of financial statements. The statement of net position and the statement of activities (Exhibits I and II, respectively) provide information about the activities of the Town as a whole and present a longer-term view of the Town's finances. Fund financial statements are presented in Exhibits III to IX. For governmental activities, these statements tell how these services were financed in the short term, as well as what remains for future spending. Fund financial statements also report the Town's operations in more detail than the government-wide statements by providing information about the Town's most significant funds. The remaining statements provide financial information about activities for which the Town acts solely as a trustee or agent for the benefit of those outside of the government.

Government-Wide Financial Statements

The analysis of the Town as a whole begins on Exhibits I and II. The statement of net position and the statement of activities report information about the Town as a whole and about its activities for the current period. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Town's net position and changes to it. The Town's net position, the difference between assets and liabilities, are one way to measure the Town's financial health, or financial position. Over time, increases or decreases in the Town's net position are one indicator of whether its financial health is improving or deteriorating. The reader needs to consider other nonfinancial factors, however, such as changes in the Town's property tax base and the condition of the Town's capital assets, to assess the overall health of the Town.

In the statement of net position and the statement of activities, the Town reports its activities as follows:

 Governmental Activities – The Town's basic services are reported here, including education, general government, public safety, public works, conservation of health and community activities. Property taxes, charges for services, and state and federal grants finance most of these activities.

Fund Financial Statements

The fund financial statements begin with Exhibit III and provide detailed information about the most significant funds, not the Town as a whole. Some funds are required to be established by Charter. However, the Town establishes many other funds to help control and manage financial activities for particular purposes (like the Revaluation Fund) or to show that it is meeting legal responsibilities for using grants and other money (like grants received from the state of Connecticut). The Town's funds are divided into two categories: governmental and fiduciary.

- Governmental Funds (Exhibits III and IV) Most of the Town's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. The relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds is described in a reconciliation included with the fund financial statements.
- Proprietary Funds (Exhibits V through VII) The Town's short and long-term financial information about the activities the government operates like business, such as the Town's Medical internal service fund, are reported in the proprietary funds. These funds provide the same type of information as the government-wide financial statements, only in more detail.
- Fiduciary Funds (Exhibits VIII and IX) The Town is the trustee, or fiduciary, for its employees' pension plans. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. All of the Town's fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position. These activities are excluded from the Town's other financial statements because the Town cannot use these assets to finance its operations. The Town is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Government-Wide Financial Analysis

The Town's combined net position increased from a year ago. The analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the Town's governmental activities.

TABLE 1 NET POSITION

	Governmental Activities						
	2025	2024					
Assets:							
Current and Other Assets	\$ 39,082,127	\$ 40,508,920					
Capital Assets, Net of Accumulated Depreciation	96,132,163	92,827,185					
Total Assets	135,214,290	133,336,105					
Deferred Outflows of Resources	30,702	339,679					
Liabilities:							
Long-Term Liabilities Outstanding	2,419,070	4,129,308					
Other Liabilities	1,667,071	2,841,683					
Total Liabilities	4,086,141	6,970,991					
Deferred Inflows of Resources	1,273,459	546,023					
Net Position:							
Net Investment in Capital Assets	95,317,988	92,827,185					
Restricted for:							
Grant Purposes	1,166,007	1,144,522					
Unrestricted	33,401,397	32,187,063					
Total Net Position	\$ 129,885,392	\$ 126,158,770					

Net position of the Town's governmental activities increases by 2.9% (\$129.8 million compared to \$126.2 million). Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation or other legal requirements – was \$32.2 million on June 30, 2024, and \$33.4 million at the end of this fiscal year.

Net position invested in capital assets increased by \$2.5 million. When developers' complete developments and turn over roads to the Town, a contribution is recognized along with the contributed asset.

TABLE 2 CHANGE IN NET POSITION

	Govern Activ	
	2025	2024
Revenues:		
Program Revenues:		
Charges for Services	\$ 3,343,537	\$ 2,794,376
Operating Grants and Contributions	10,530,268	7,780,556
General Revenues:		
Property Taxes	69,295,827	65,575,714
Grants and Contributions Not Restricted to		
Specific Purposes	632,591	735,885
Unrestricted Investment Earnings	2,737,673	2,913,480
Miscellaneous	320,608	324,352
Total Revenues	86,860,504	80,124,363
Program Expenses:		
General Government	10,144,318	8,710,441
Public Safety	5,810,071	4,931,359
Public Works	6,846,751	6,490,171
Conservation of Health	328,124	341,980
Community Activities	2,354,174	2,301,437
Education	57,650,444	53,858,679
Debt Service	-	44,264
Total Program Expenses	83,133,882	76,678,331
Increase in Net Position	\$ 3,726,622	\$ 3,446,032

The Town's total revenues were \$86.9 million. Total cost of all programs and services was \$83.1 million. Property tax collection rate was 99.5% and accounted for 79.8% of all revenues. Revenues from operating grants and contributions, the second largest component, were 12.1%. Education expenses of \$57.6 million were 69.3% of total expenses.

Table 3 presents the cost of each of the Town's programs - general government, public safety, public works, conservation of health, community activities, education, and debt service - as well as each program's net cost (total cost less revenues generated by the activities). The net cost shows the financial burden that was placed on the Town's taxpayers by each of these functions.

Town Funds Financial Analysis

Governmental Funds

As the Town completed the year, its governmental funds (as presented in the balance sheet - Exhibit III) reported a combined fund balance of \$35.6 million, which is a decrease from last year's total of \$35.7 million. The original budget for 2025 also utilized \$1,737,182 of the prior year fund balance to balance it.

The Capital Projects Fund balance increased by \$0.7 million due primarily to road construction, equipment purchases and fluctuation in the markets due to supply chain issues.

The Town's General Fund balance of \$18.4 million reported on Exhibit III differs from the General Fund's budgetary fund balance of \$18.5 million. This is because the governmental fund balance (Exhibit III) does not include \$633,827 of outstanding encumbrances at year end, which are reported as expenditures for budgetary purposes.

Capital Asset and Debt Administration

Capital Assets

On June 30, 2025, the Town had \$96.1 million invested in a broad range of capital assets, including land, buildings, park facilities, vehicles and equipment, roads and bridges - Table 4. This amount represents a slight decrease over the prior fiscal year.

TABLE 4 CAPITAL ASSETS (Net of Depreciation) (In Thousands)

	Governmental Activities							
		2025		2024				
Land Buildings and Improvements Equipment Infrastructure Construction in Progress	\$	20,126 13,712 9,028 50,118 3,148	\$ 20,126 14,102 7,206 49,989 1,404					
Totals	<u>\$</u>	96,132	\$	92,827				
This year's major additions included:								
Fire and Police Vehicles Roads and Bridges	\$	2,385,504 1,998,544						

The Town's fiscal year 2025-26 capital plan calls for it to spend \$752,000 on vehicles. The Town also appropriated an additional \$1,905,549 for road improvements.

More detailed information about the Town's capital assets is presented in Note 1 and Note 5 to the financial statements.

Long-Term Debt

For the prior two years, the Town had \$0 in bonds and notes outstanding.

The Town's general obligation bond rating improved to a AAA rating, a rating that has been assigned by national rating agencies to the Town's debt since May 2024. The State limits the amount of general obligation debt that cities can issue based on a formula determined under State Statutes based on type of debt and tax base. The Town's outstanding general obligation debt is significantly below this \$458.7 million state-imposed limit.

Other obligations include accrued vacation pay and sick leave. More detailed information about the Town's long-term liabilities is presented in Note 7 to the financial statements.

Economic Factors and Next Year's Budgets and Rates

During May 2025, the Town adopted a General Fund budget for the fiscal year ending June 30, 2026. The budget reflected an overall increase in expenditures of \$2,678,844 or 2.95% over the final fiscal year 2025 amended budget. The budgeted expenditures of \$84,012,73 resulted in a mill rate increase and allowed the Town to continue to maintain the same level of programs and services to its residents. The Town has planned to utilize \$1,750,647 of the fund balance for the purpose of balancing the budget.

A summary of key economic factors affecting the Town are as follows:

- For purposes of calculating property tax revenues for fiscal year 2026, the assessor's grand list
 was used along with an estimated tax rate, and an estimated rate of collection, with deductions
 for taxes to be paid by the State on behalf of certain taxpayers. Property tax revenues were
 planned to have an increasing role in funding the General Fund budget due to expected
 reductions in intergovernmental and other revenues.
- Intergovernmental grants were based on preliminary estimates from the State. Connecticut's economy moves in the same general cycle as the national economy, which may affect the amount of intergovernmental revenues the Town will receive in fiscal year 2026 and thereafter. The State General Assembly can and has changed these estimates over the years, for which such changes are typically made after the Town budget has been adopted. A decrease in intergovernmental revenues has been anticipated due to the financial condition of the State.
- It was unknown how changes in market interest rates will impact real estate activity and related revenues collected by the Town Clerk and the amount of the conveyance taxes and interest income.
- The impact of the August 2024 storm and reimbursements from FEMA continue into fiscal year 2025-26.
- Impact of the loss of tax revenue for the Kettletown Road property was factored into the calculation of the mill rater.

All of these factors were considered in the preparation of the Town's General Fund budget for the fiscal year 2026.

Contacting The Town's Financial Management

This financial report is designed to provide citizens, taxpayers, customers, investors, and creditors with a general overview of the Town's finances and to show the Town's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Finance Department, Town of Southbury, 501 Main Street, Southbury, Connecticut 06488.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Town of Southbury, Connecticut (the Town) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant policies of the Town are described below.

A. Reporting Entity

The Town was incorporated in 1787. Its legal authority is derived from its Charter, which was adopted in 1975 and most recently amended in 2014. The Town operates under a Board of Selectmen/Board of Finance/Town Meeting form of government. Services provided include street maintenance, recreation, police, and fire protection, planning and zoning, community services, and health services. The Town is a member of Regional School District #15, which provides education services for all children.

The legislative power of the Town is vested with the Board of Selectmen and the Town Meeting. The Board of Selectmen may enact, amend, or repeal ordinances and resolutions. The administration of the Town offices and agencies is the responsibility of the First Selectman.

The Board of Finance is responsible for financial and taxation matters as prescribed by the Charter and Connecticut General Statutes and is responsible for presenting fiscal operating budgets for Town Meeting approval.

The Town has the power to incur indebtedness by issuing bonds or notes as provided by the Connecticut General Statutes.

Accounting principles generally accepted in the United States of America require that the reporting entity include the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. A government is financially accountable for a legally separate organization if it appoints a voting majority of the organization's governing body and there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the government. These criteria have been considered and have resulted in the inclusion of the fiduciary component units as detailed below.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

A. Reporting Entity (Continued)

Fiduciary Component Units

The Town has established a single-employer Public Retirement Systems (PERS) and a 401/457 to provide retirement benefits to employees and their beneficiaries. The Town appoints a majority of the Pension Board and is required to make contributions to the pension and 401/457 plans and can impose its will.

The financial statements of the fiduciary component units are reported as Pension Trust funds in the fiduciary fund financial statements. Separate financial statements have not been prepared for the fiduciary component units.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, charges for services, licenses and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received.

The Town reports the following major governmental funds:

General Fund

The General Fund is the Town's primary operating fund. It accounts for all financial resources of the Town, except those required to be accounted for in another fund.

Capital Projects Fund

The Capital Projects Fund is used to account for the financial resources for the acquisition and construction of major capital facilities. The major source of revenue is from bond proceeds and General Fund transfers.

Small Cities Fund

The Small Cities Fund accounts for federal grants to be used for the rehabilitation of private residential structures.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Additionally, the Town reports the following fund types:

Internal Service Fund

The Internal Service Fund is used to account for the Town's self-insurance program for accident and health insurance coverage of Town employees.

Pension Trust Fund

The Pension Trust Fund accounts for the activities of the Town of Southbury Pension System, which accumulates resources for pension benefit payments to qualified Town employees, and also the 457 and 401(a) plans, which are established to provide additional retirement benefits to the employees of the Town.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and other charges between certain Town functions because the elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include property taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Town's proprietary funds are charges to the Town and its employees for medical insurance premiums. Operating expenses for the funds include the cost of claims and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed. Unrestricted resources are used in the following order: committed, assigned then unassigned.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

State statutes authorize the Town to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements, and certain other investments as described in Note 3.

Investments for the Town are reported at fair value.

E. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." All trade and property tax receivables are shown net of an allowance for uncollectibles. Allowances for uncollectibles are computed based on historical data.

Property taxes are assessed on property as of October 1. Taxes are billed in the following July and are due in two installments, July 1 and the following January 1. Liens on real property are filed on May 1 following the due date. Interest on delinquent taxes accrues at the rate of 1.5% per month.

F. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

G. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Capital Assets (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment are depreciated using the straight-line method over the following estimated useful lives:

Buildings	25 to 50 Years
Building Improvements	25 to 50 Years
Public Domain Infrastructure	20 to 50 Years
System Infrastructure	20 to 50 Years
Vehicles	5 to 15 Years
Office Equipment	5 to 15 Years
Land Improvements	10 to 20 Years

H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period or periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Town reports deferred outflows related to pension in the government-wide statement of net position. A deferred outflow of resources related to pension results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees).

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

H. Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period or periods and so will not be recognized as an inflow of resources (revenue) until that time. The Town reports a deferred inflow of resources related to pensions in the government-wide statement of net position. A deferred inflow of resources related to pension results from differences between expected and actual experience, changes in assumptions or other inputs. These amounts are deferred and included in pension expense in a systematic and rational manner over a period equal to the average of the expected remaining service lives of all employees that are provided with benefits through the pension plan (active employees and inactive employees). Also, for governmental funds, the Town reports unavailable revenue, which arises only under the modified accrual basis of accounting. The governmental funds report unavailable revenues from grants, property taxes and interest on property taxes. These amounts are deferred and recognized as an inflow of resources (revenue) in the period during in which the amounts become available.

I. Compensated Absences

Substantially all Town employees, other than those employed on a seasonal or temporary basis, are allowed to accumulate a limited amount of unused vacation and sick leave until termination of their employment. Upon termination of service, an employee with over six months of service is entitled to payment for unused vacation.

The liability for compensated absences reported in the government-wide statements consists of leave that has not been used that is attributable to services already rendered, accumulates, and is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. The liability also includes amounts for leave that has been used for time off but has not yet been paid in cash or settled through noncash means and certain other types of leave.

J. Net Pension Liability

The net pension liability is measured as the portion of the actuarial present value of projected benefits that is attributed to past periods of employee service (total pension liability), net of the pension plan's fiduciary net position. The pension plan's fiduciary net position is determined using the same valuation methods that are used by the pension plan for purposes of preparing its statement of fiduciary net position. The net pension liability is measured as of a date (measurement date) no earlier than the end of the employer's prior fiscal year, consistently applied from period to period.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of any significant applicable bond premium or discount. Bond issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

L. Fund Equity

Equity in the government-wide financial statements is defined as "net position" and is classified in the following categories:

Net Investment in Capital Assets – This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted Net Position – Restrictions on net position are externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position – This component consists of net position that does not meet the definition of "restricted" or "net investment in capital assets."

The equity of the fund financial statements is defined as "fund balance" and is classified in the following categories:

Nonspendable Fund Balance – This represents amounts that cannot be spent due to form (e.g., inventories and prepaid amounts).

Restricted Fund Balance – This represents amounts constrained for a specific purpose by external parties, such as grantors, creditors, contributors, or laws and regulations of their governments.

Committed Fund Balance – This represents amounts constrained for a specific purpose by a government using its highest level of decision-making authority (Board of Finance) through a resolution.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

L. Fund Equity (Continued)

Assigned Fund Balance – This balance represents amounts constrained for the intent to be used for a specific purpose by a governing board or a body or official that has been delegated authority to assign amounts.

Unassigned Fund Balance – This This represents fund balance in the General Fund in excess of nonspendable, restricted, committed, and assigned fund balance. If another governmental fund has a fund balance deficit, it is reported as a negative amount in unassigned fund balance.

M. Estimates

The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities including disclosures of contingent assets and liabilities and reported revenues and expenditures/expenses during the fiscal year.

N. Effect of Accounting Standards on Current Period Financials

GASB 101 Compensated Absences

GASB Statement 101 addresses the recognition and measurement for compensated absences. An evaluation was done effective July 1, 2024, and it was determined that there was no material effect on the Town of Southbury, Connecticut's financial statements.

NOTE 2 STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Information

The Town adheres to the following procedures in establishing the budget for the General Fund. On the third Monday in May, the Board of Finance submits to a Town Meeting, at which taxpayer comments are obtained, a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.

- Prior to July 1, the budget is legally adopted by vote of the Annual Town Meeting.
- The Board of Finance in concurrence with the Board of Selectmen is authorized to make additional appropriations up to \$20,000 to any single agency or department per year. Any appropriation causing the total to exceed or exceeding \$20,000 must be approved by Town Meeting.
- Budgets are adopted on the modified accrual basis of accounting.
- The legal budget is a departmental-level budget.
- There were supplemental appropriations of \$4,722,338 during the year ended June 30, 2025. All additional appropriations were made in accordance with the Charter.

Budgets for Special Revenue Funds are prepared in accordance with the requirements of the various grant agreements and/or provisions which control the expenditure of such funds. Since such budgets are adopted on a program basis, it is not practicable to present the results of budgetary operations at the combined level.

 Capital Projects appropriations for capital and reserve funds are approved in the annual budget. Projects in excess of \$20,000 not in the annual budget are approved at Town Meeting.

All General Fund appropriations lapse at year-end. Appropriations for Capital Projects Funds and several Special Revenue Funds are continued until completion of the project, even when projects extend for more than one fiscal year. If three years lapse without any expenditure or any encumbrance of said funds, the appropriation will lapse.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year-end are reported as either assigned or committed fund balance and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

NOTE 3 CASH, CASH EQUIVALENTS, AND INVESTMENTS

The deposit of public funds is controlled by the Connecticut General Statutes (Section 7-402). Deposits may be made in a "qualified public depository" as defined by the Statutes or, in amounts not exceeding the Federal Deposit Insurance Corporation insurance limit, in an "out of state bank" as defined by the Statutes, which is not a "qualified public depository."

The Connecticut General Statutes (Section 7-400) permit municipalities to invest in: 1) obligations of the United States and its agencies, 2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof, and 3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. Other provisions of the Statutes cover specific municipal funds with particular investment authority. The provisions of the Statutes regarding the investment of municipal pension funds do not specify permitted investments. Therefore, investment of such funds is generally controlled by the laws applicable to fiduciaries and the provisions of the applicable plan.

The Statutes (Sections 3-24f and 3-27f) also provide for investment in shares of the State Short-Term Investment Fund (STIF). These investment pools are under the control of the State Treasurer, with oversight provided by the Treasurer's Cash Management Advisory Board and are regulated under the State Statutes and subject to annual audit by the Auditors of Public Accounts. Investment yields are accounted for on an amortized-cost basis with an investment portfolio that is designed to attain a market-average rate of return throughout budgetary and economic cycles. Investors accrue interest daily based on actual earnings, less expenses and transfers to the designated surplus reserve, and the fair value of the position in the pool is the same as the value of the pool shares.

A. Deposits

Deposit Custodial Credit Risk

Custodial credit risk is the risk that, in the event of a bank failure, the Town's deposit will not be returned. The Town has a formal deposit policy for custodial credit risk. The deposit of public funds is controlled by the Connecticut General Statutes. Deposits may be placed with any qualified public depository that has its main place of business in the state of Connecticut. Connecticut General Statutes require that each depository maintain segregated collateral (not required to be based on a security agreement between the depository and the municipality and, therefore, not perfected in accordance with federal law) in an amount equal to a defined percentage of its public deposits based upon the depository's risk-based capital ratio.

NOTE 3 CASH, CASH EQUIVALENTS, AND INVESTMENTS (CONTINUED)

A. Deposits (Continued)

Deposit Custodial Credit Risk (Continued)

Based on the criteria described in GASB Statement No. 40, *Deposits and Investment Risk Disclosures*, \$4,682,519 of the Town's bank balance of \$21,765,612 was exposed to custodial credit risk as follows:

Uninsured and Uncollateralized	\$ 4,164,267
Uninsured and Collateralized, Held by the Pledging	
Bank's Trust Department, Not in the Town's Name	518,252
Total Amount Subject to Custodial	_
Credit Risk	\$ 4,682,519

Cash Equivalents

At June 30, 2025, the Town's cash equivalents amounted to \$485,007. The following table provides a summary of the Town's cash equivalents (excluding U.S. government guaranteed obligations) as rated by nationally recognized statistical rating organizations. The pools all have maturities of less than one year.

	Bal	ance June 30, 2025	Standard & Poor's Rating		
Wells Fargo	\$	485,007	*		
* Not Rated					

B. Investments

As of June 30, 2025, the Town had the following investments:

Other Investments:

 Mutual Funds
 \$ 51,184,830

 Total Investments
 \$ 51,184,830

Interest Rate Risk

The Town does not limit its maximum final stated maturities to fifteen years. To the extent possible, the Town will attempt to match its investments with anticipated cash flow requirements.

NOTE 3 CASH, CASH EQUIVALENTS, AND INVESTMENTS (CONTINUED)

B. Investments (Continued)

Credit Risk - Investments

As indicated above, State Statutes limit the investment options of cities and towns. The Town has an investment policy that allows the same type of investments as State Statutes.

Concentration of Credit Risk

The Town has a policy limiting an investment in any one issuer that is in excess of 5% of the Town's total investments. The Town does not have any investments that are in excess of 5% at June 30, 2025.

Custodial Credit Risk

Custodial credit risk for an investment is the risk that, in the event of the failure of the counterparty (the institution that pledges collateral or repurchase agreement securities to the Town or that sells investments to or buys them for the Town), the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town has a policy for custodial credit risk. At June 30, 2025, the Town did not have any uninsured and unregistered securities held by the counterparty or by its trust department or agent that were not in the Town's name.

Reserve Investment Plan

The Town has established a Reserve Investment Plan (the Plan) to invest the Town's reserve funds in a fashion consistent with Connecticut General Statutes (Chapter 108, Section 7-359 to 7-368) as well as the Town's specific risk tolerance constraints (asset allocation) as dictated by the Southbury Board of Finance.

Management of the Plan rests with the Investment Portfolio Oversight Committee (IPOC), which consists of two representatives from the Board of Selectmen, two representatives from the Board of Finance, the Controller/Treasurer of the Town, two members of the Southbury Public Library Board of Directors, and two members and one alternate member, appointed by the Board of Selectmen based on qualifications, who are residents of the Town.

In addition to investing funds according to the applicable statutes and Town policies, and looking to achieve the maximum target return, the IPOC has established a stability fund where the gains and losses of the portfolio will be tracked.

NOTE 3 CASH, CASH EQUIVALENTS, AND INVESTMENTS (CONTINUED)

B. Investments (Continued)

Fair Value Measurements

The Town categorizes its fair value measurements within the fair value hierarchy established by accounting principles generally accepted in the United States of America. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements); followed by quoted prices in inactive markets or for similar assets or with observable inputs (Level 2 measurements); and the lowest priority to unobservable inputs (Level 3 measurements). The Town has the following recurring fair value measurements as of June 30, 2025:

	June 30,			Fair Value Measurements Using								
		2025 Leve		Level 1	Level 2		Level 3					
Investments by Fair Value Level:												
Mutual Funds	\$	51,184,830	\$	50,649,882	\$	-	\$	534,948				
Total Investments by Fair Value Level	\$	51,184,830	\$	50,649,882	\$	_	\$	534,948				

Debt and equity securities classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for those securities. Investments managed by others classified in Level 2 are valued using prices for similar investments quoted in active markets for those securities.

NOTE 4 RECEIVABLES

Receivables as of year-end for the Town's individual major, nonmajor, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General	Small Cities		lonmajor nd Other Funds	Total		
Receivables:	 						
Taxes	\$ 689,684	\$ -	\$	-	\$	689,684

Limited Reserve Accounts		24,487,451		23,230,032		-		1,257,419	

NOTE 6 INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

At June 30, 2025, the interfund transfers are as follows:

		Trans					
	I	Internal Capital				Total	
	Ser	vice Fund		Projects	Transfers Ou		
Transfers Out:							
General Fund	\$	59,188	_\$_	5,551,214	\$	5,610,402	
Total Transfers In	\$	59,188	\$	5,551,214	\$	5,610,402	

All transfers are for regularly recurring operational transfers.

NOTE 7 LONG-TERM DEBT

Changes in Long-Term Liabilities

Long-term liability activity for the year ended June 30, 2025, was as follows:

	E	Beginning						Ending	Di	ue Within	
		Balance		Additions		Reductions		Balance		One Year	
Governmental Activities:		_	,	_				_		_	
Compensated Absences	\$	388,548	\$	1,104,984	\$	372,824	\$	1,120,708	\$	612,571	
Net Pension Liability		3,740,760		-		2,442,398		1,298,362			
Total Governmental											
Activities Long-Term											
Liabilities	\$	4,129,308	\$	1,104,984	\$	2,815,222	\$	2,419,070	\$	612,571	

Overlapping Debt

The Town is a member of Regional School District #15, which provides education facilities for grades kindergarten through 12 for the Towns of Southbury and Middlebury. As of June 30, 2025, the outstanding bonded indebtedness of the District was \$10,275,000 in the form of a Bond Anticipation Note. The Town's share will be approximately 66% of the balance or \$6,795,710. These are general obligations of Regional School District #15 and its member towns.

NOTE 7 LONG-TERM DEBT (CONTINUED)

Overlapping Debt (Continued)

The Town's indebtedness does not exceed the legal debt limitations as established by Connecticut General Statutes as reflected in the following schedule (in thousands):

Category	Debt Limitation	Indebtedness*	Balance
General Purpose	\$ 147,424,426	\$ -	\$ 147,424,426
Schools	294,848,852	6,795,710	288,053,142
Sewers	245,707,376	-	245,707,376
Urban Renewal	212,946,393	-	212,946,393
Pension Deficit	196,565,901	-	196,565,901

^{*} Portion of Regional School District #15 indebtedness as described above. Also includes bonds authorized unissued when debt has been issued.

In no case shall total indebtedness exceed seven times annual receipts from taxation of \$458,653,769.

NOTE 8 FUND BALANCE

The components of fund balance for the governmental funds at June 30, 2025, are as follows:

	General Fund	Capital Projects Fund		Small Cities		Nonmajor Governmental Funds		Total

NOTE 8 FUND BALANCE

Significant encumbrances of \$613,959 are included in the General Fund assigned fund balance as of June 30, 2025.

NOTE 9 RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties, except as disclosed below.

Medical Self-Insurance

The Town entered into a Cooperative Agreement with the Town of Middlebury and the Regional School District #15 Board of Education, effective July 1, 2013, to facilitate the group purchase of health benefits for active employees and non-Medicare eligible retirees. The Town withdrew from the Cooperative Agreement as of June 30, 2022, and has purchased insurance from an independent third party.

A schedule of changes in the claims liability for the year ended June 30, 2025, is presented below:

	Α	ccrued	Curre	nt Year	Α	ccrued	Α	Accrued			
	L	Liability Claims Paid				₋iability	L	Liability

2024-2025	\$	98,284	\$	-	\$	98,284	\$	-			
2023-2024		98,284		-		-		98,284			

NOTE 10 EMPLOYEE RETIREMENT PLAN

A. Pension Trust Fund

The Town is the administrator of a single-employer Public Employee Retirement System (PERS) established and administered by the Town to provide retirement, disability, and death benefits for its employees. The PERS is considered to be part of the Town's financial reporting entity and is included in the Town's financial reports as a pension trust fund. The system was established by vote of the Board of Selectmen July 1, 1970.

NOTE 10 EMPLOYEE RETIREMENT PLAN (CONTINUED)

A. Pension Trust Fund (Continued)

Management of the plan rests with the IPOC, which consists of two representatives from the Board of Selectmen, two representatives from the Board of Finance, the Controller/Treasurer of the Town, two members of the Southbury Public Library Board of Directors and two members and one alternate member, appointed by the Board of Selectmen based on qualifications, who are residents of the Town.

Plan Description and Benefits Provided

The Town of Southbury Retirement System covers substantially all employees working more than 20 hours a week.

Participants who retire at normal retirement date are entitled to a monthly retirement benefit in an amount equal to 1.5% and 2.5% (police) of their average monthly earnings multiplied by years of service up to a maximum of 35 years. Average monthly compensation is the average salary over the 60 consecutive month period that provides the highest average (36 months for police). The plan also produces a preretirement death benefit. Participants become 100% vested on completing 5 years of vesting service. Normal retirement eligibility is later of age 50 and completing 20 years of service but not later than age 55 for police and the later of age 65 or 5 years for all others.

The membership of the plan consisted of the following at July 1, 2024:

Retirees and Beneficiaries Currently Receiving Benefits	102
Terminated Plan Members Entitled to Benefits But Not	
Receiving Them	44
Current Plan Members	42
Total	188

The pension plan was closed to new entrants (except police) as of July 1, 2014.

Summary of Significant Accounting Policies and Plan Asset Matters

Basis of Accounting

PERS financial statements are prepared using the accrual basis of accounting. Employee and employer contributions are recognized as revenues in the period in which employee services are performed. Benefit payments and refunds are payable when due and payable in accordance with the terms of the plan.

Method Used to Value Investments

All assets are valued at fair value. All investments are invested in government bonds, corporate bonds, and equity mutual funds. Investment income is recognized as earned.

NOTE 10 EMPLOYEE RETIREMENT PLAN (CONTINUED)

B. Funding Policy

The Town is required to contribute the amounts necessary to fund the PERS and cover all administrative charges. Police are required to contribute 1.9% of annual earnings. All amounts are determined by annual actuarial valuations and are included as part of the annual budget expenditures. The contribution requirements of the Town and plan members may be amended by the Board of Selectmen and subject to bargaining unit approval.

C. Investments

Investment Policy

The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the PERS Board by a majority vote of its members. It is the policy of the PERS Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2025:

Asset Class	Allocation
U.S. Cash	3.00 %
U.S. Core Fixed Income	26.00
U.S. Long STRIPS (20+ Years)	0.75
Global Bonds	5.50
U.S. Large Caps	20.00
U.S. Small and Mid Caps	13.00
Global Equity	3.00
Non-U.S. Equity	20.00
Emerging Markets Equity	2.00
Global REITs	2.25
Farmland	1.13
Infrastructure - Public	2.25
Commodities	1.12
Total	100.00 %

Rate of Return

For the year ended June 30, 2025, the annual money-weighted rate of return on investments, net of investment expense, was 12.62%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

NOTE 10 EMPLOYEE RETIREMENT PLAN (CONTINUED)

D. Net Pension Liability of the Town

The net pension liability is measured at June 30, 2025. The components of the net pension liability of the Town at June 30, 2025, were as follows:

Total Pension Liability	\$ 31,545,470
Plan Fiduciary Net Position	30,247,108
Net Pension Liability	\$ 1,298,362

Plan Fiduciary Net Position as a Percentage of the Total Pension Liability

95.88 %

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation as of July 1, 2024, using the following actuarial assumptions, applied to all periods included in the measurements:

Inflation	2.50 %
Salary Increases	3.00
Investment Rate of Return	6.25

Mortality rates were based on the Pub-2010 Mortality Table for Employees, Healthy Annuitants and Disabled Annuitants with generational projection of future improvements per the MP-2021 Ultimate scale.

NOTE 10 EMPLOYEE RETIREMENT PLAN (CONTINUED)

D. Net Pension Liability of the Town (Continued)

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2025 (see the discussion of the pension plan's investment policy) are summarized in the following table:

	Long-Term
	Expected Real
Asset Class	Rate of Return
U.S. Cash	0.80 %
U.S. Core Fixed Income	2.20
U.S. Long STRIPS (20+ Years)	2.46
Global Bonds	0.68
U.S. Large Caps	3.78
U.S. Small and Mid Caps	3.62
Global Equity	4.39
Non-U.S. Equity	5.35
Emerging Markets Equity	5.73
Global REITs	4.57
Farmland	4.24
Infrastructure - Public	4.18
Commodities	1.61

Discount Rate

The discount rate used to measure the total pension liability was 6.25% for June 30, 2025. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that Town contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 10 EMPLOYEE RETIREMENT PLAN (CONTINUED)

D. Net Pension Liability of the Town (Continued)

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a)-(b)
Balances as of July 1, 2024	\$ 31,089,82	\$ 27,349,068	\$ 3,740,760

NET POSITION - END OF YEAR	\$ 30,247,108	\$ 5,112,272	\$ 35,359,380

NOTE 11 DEFINED CONTRIBUTION PLAN

The Town established a defined contribution plan effective July 1, 2014. The Town will match employee contributions by 1% for every percent of the employee's base salary contributed by the employee up to a total of 5% of the employee's base salary for the relevant fiscal year. If an employee's employment is terminated for other than just cause during the fiscal year, the employee shall receive a pro rata Town contribution based on the number of full months of employment the employee completes during the fiscal year, subject to the vesting requirements set forth below.

After one (1) year of employment	20%
After two (2) years of employment	40%
After three (3) years of employment	60%
After four (4) years of employment	80%
After five (5) years of employment	100%

Employees will have the right to self-direct their contributions to the defined contribution plan from among the investment options offered by the plan selected by the Town.

Total contributions to the plan for the year ended June 30, 2025, were \$420,826 for employees and \$63,560 for the Town.

NOTE 12 CONTINGENT LIABILITIES

The Town is currently a defendant in a number of lawsuits including tax appeals. It is the opinion of Town officials and legal counsel that such pending litigation will not be finally determined so as to result individually or in the aggregate in a final judgment against the Town that would materially adversely affect its financial position.

NOTE 13 SUBSEQUENT EVENTS

The Town issued \$8,520,000 of general obligation bond anticipation notes on July 8, 2025. The notes had a rate of 4.0% and are due July 7, 2026.
