

# SOUTHBURY MAKERS SPOTLIGHT

## Meet: Sarah's Sayings

For Southbury resident Sarah Malyska, the signs were there pointing the way for her to start her own creative business. This month, we are pleased to feature her work at Sarah's Sayings.

Malyska has spent years crafting beautiful, custom signs in addition to teaching classes on her process. Her business started slowly, focusing on projects for her friends and family between her schedule as a busy stay-at-home mother of three. "It's a nice job that allows me to still have my children and husband as number one," said Malyska. "I love to create and help people create their very own visions."

When The Cottage on Main opened in Southbury, it was an opportunity for Malyska to begin teaching a few classes and more aggressively grow her small business both in the store and on social media.

Sarah's Sayings makes signs to order and offers a wide variety of functions and styles. "Holiday signs, business signs, small shelf signs, porch decor, you name it," said Malyska.

She hopes the Makers Spotlight will provide more exposure to the community to expand her business. Be sure to check out her work on Instagram: @Sarahs\_Sayings or by emailing sarahjkiely@gmail.com.
